Public Comment for OMB regulations

,

Dear Public Comment for OMB regulations:

Here we go again , the republican party assaulting federal workers jobs!
First we send almost all our union manufacturing jobs to overseas child
labor nations then bust the labor unions in the federal government and
hire illegal aliens for less than minimum wage! We'll make a few of the
elite republican campaign contributors filthy rich and eliminate those
blue collar workers jobs and costly retirement benefits! Now lets work on
stealing the next election!

Sincerely,

Ronald M Tripp
