I am commenting as both citizen and federal employee. While I support obtaining effective usage of tax monies by all federal employees, I am opposed to the widespread competition inherent in proposed A-76, especially if it will apply to management of federal lands such as national parks,refuges and national forests which I believe should be left up to federal employees trained and dedicated to caring for them properly.

Also, I believe that when the private sector wins a contract, it should have a definitive end-date and the same level of evaluation of results as the public employees get from management.

Finally, I think it is wrong to end federal agency to federal agency arrangements, many of which are working well and giving good value for the tax dollar. This provision of A-76 is wrong-headed and should be dropped.

I am Stephen Glasser, 2804 Noble Fir Ct, Woodbridge, VA 22192-3816, phone 703-491-3925 and email is h2orights@yahoo.com. It is December 19, 2002 at 11:30 am.
