Subject: Senior rites

As a matter of principle, one life should be valued as much as the other. In addition one life should be valued as much as another. This analysis could water down anti-pollution regulations and harm the health of senior citizens. Why then do we have some really senior people in our congress leading our Government, if they aren't contributing good choices in Government?

Do not shut out our Seniors as they are the ROOTS of our country.

Am an interested American Senior Citizen.
